

NEWSLETTER DECEMBER 2007

Merry Christmas

Coachworks would like to wish you all a happy Christmas and a prosperous New Year. We hope you enjoy the festive season with family and friends and we look forward to working with you in 2008.

WORKSHOP CHRISTMAS HOURS

Coachworks will be closed from Saturday 22 December 2007 and will reopen in 2008 on Thursday 3rd January.

From the GM'S Desk

Welcome to our first electronic Coachworks newsletter. We hope you enjoy receiving what will be a quarterly newsletter, which we hope you find informative and relative to the latest industry trends. We also encourage you to check out our website www.coachworks.com.au which is updated regularly.

SAFE-T-RIDE

The Coachworks SAFE-T-RIDE Seat belted School Bus Seating has full compliance to ADR 68 as required by the Federal Office of Road Safety.

The SAFE-T-RIDE seat is available in both 2 2 and 3 2 (5 across) configurations and boosts child friendly attributes whilst still maintaining comfort for adult passengers.

At Coachworks we recognise the importance of timely supply and have increased our stock holding of components and capability to produce the SAFE-T-RIDE seats to ensure we can support our existing and new customers in 2008 in both the supply ONLY & retrofitting of our seating product.

I would also like to take this opportunity to thank those customers that have purchased the SAFE-T-RIDE product during 2007 and thank them also for their feedback to date.

REFURBISHMENT

During 2007 Coachworks has performed many refurbishments particularly where vehicles also required frame inspection &/or life extension.

This is an area that through years of experience we have been able to develop the systems that allow us to complete the work both on time and to customer satisfaction without concern.

From the advice at quotation stage, through the body frame & panel stages & the application of a quality refinish system Coachworks has the qualified & experienced team to ensure your refurbishment is a success.

Once again I thank our customers for their support in this area and welcome further enquiry on refurbishment work from our existing or new customers in 2008.

BODY MAINTENANCE

As part of our ongoing commitment to servicing our local industry we have also created the capability to provide services in general body maintenance, these services can be but are not limited to exterior & interior bodywork & electrical.

With strong working relationships with both manufacturers and suppliers in the bus & coach manufacturing industry Coachworks can support your vehicles regardless of make & model.

Finally I would like to sincerely thank our staff, our suppliers & and most importantly our customers for supporting us in 2007 and look forward to building the relationships that help us to build and support our industry in 2008.

Merry Christmas
Scott Isaacs

KEEP YOUR FLEET LOOKING GREAT IN 2008

Now is the time to start planning your 2008 fleet maintenance and refurbishment schedule. Coachworks offer a full range of service to ensure your fleets are not only kept in good condition, but are kept modern and appealing to your customers.

Log onto our website's [Refurbishment](#) section to see our transformation of a recent Denning Landseer. This refurbishment was completed in 2007 and as you can see from the images, provided a total transformation on both the interior and exterior of the vehicle

Perhaps your vehicles don't require a full refurbishment, but just general body maintenance? Coachworks offer a full range of body maintenance services. Check out our [Body Maintenance](#) page to see the full range of services. We are proud to look after a number of leading industry fleets including Darren Webster's fleet at Kangaroo Bus Lines.
